

INCDMRR MANAGEMENT COMMITMENT IN THE FIELDS OF QUALITY AND ENVIRONMENTAL PROTECTION

INCDMRR's policy is to contribute to fundamental and applied research in the field of rare metals and radioactive resources by meeting all reasonable demands of our customers as well as legal and regulatory requirements under cost-effective conditions. This includes protecting the environment and natural resources, preoccupation with the health and safety of our employees.

For this purpose, INCDMRR implements an Integrated Management System for Quality and Environment according to **SR EN ISO 9001: 2015 and SR EN ISO 14001: 2015** standards.

We commit ourselves to allocating all necessary resources to meet the quality objectives, environmental pollution prevention and to monitor the continuous operation and improvement of the effectiveness of the integrated management system.

We will constantly seek to make the most effective use of our resources, including human resources. We are aware that the most important factor of success is the competent and well-motivated people, who have the necessary infrastructure, working in a healthy and safe environment. We believe that the best economic results are closely related to the responsibility we feel towards the employees of society, each of them being responsible for preserving the environment in which we work, safe, clean and orderly.

Quality is the responsibility of everyone, and therefore all employees must act to prevent nonconformities, continuously improve processes, achieve excellence in the services we provide to our customers.

Managers must have a proactive attitude, lead by their own example, encourage communication and make decisions based on the analysis of the facts.

Mrs. Eugenia PANTURU is responsible for the design, implementation, monitoring of the Integrated Management System processes, promotes the awareness of the client's requirements and informs the management of the company about the functioning of the system and about any need for improvement.

15.01.2017

GENERAL MANAGER

Dr.ing. Gh. CRUTU
